

If a picture is worth a thousand words, we certainly have you covered at LifeShare. Pictures play a key role in both our personal and senior living community systems. Here are some quick pointers on how to make the most of your photos!

1. **Start right away.** Sharing pictures is easy! They may be attached to messages or uploaded. Either way, they're easily viewed in a user's slideshow. Set a calendar reminder to send a new picture regularly.
2. **Mix them up.** Some people like landscapes, others like pictures of people. Because there is no limit to the number of pictures you can upload, feel free to try different approaches and see what the user prefers.
3. **The more the merrier.** Because there are no limits to family contributors, everyone – young and old – can share pictures of special moments with their loved ones.
4. **Reminiscence.** Don't forget to share photos from the past that rekindle memories and feelings. And, it's easy to add captions to any photos you wish.
5. **Picture Slide Show.** The LifeShare slideshow makes viewing pictures easy. The full-screen slideshow enlarges the pictures to your TV's screen size, and they may be viewed manually or automatically. The system can play therapeutic music while slideshow running too.
6. **Spontaneity.** Sometimes the most fun pictures or videos are the ones we capture on our mobile device. Remember, these are easily emailed or uploaded too.
7. **Don't sweat the details.** Don't worry that your photo file will be too big or too small. LifeShare will automatically compress or enlarge the photo for optimal viewing.
8. **Nothing's carved in stone.** LifeShare makes easy work of hiding, deleting, or exporting photos whenever you want. So there is no reason to delay getting started. (See tip number one above!)
